

Fast. Greedy. Seaworthy.

Are you greedy for fuel and time? ESNA Strat Skua 23

The Skua CTV family combines market leading speed and fuel economy with spacious cargo deck.

It is the obvious choice for windfarms located 20-50 nautical miles from shore.

As proven with CWind Pioneer and Aircat 35, the fuel savings is 30-50% compared to traditional crew transfer vessels.

Short specification:

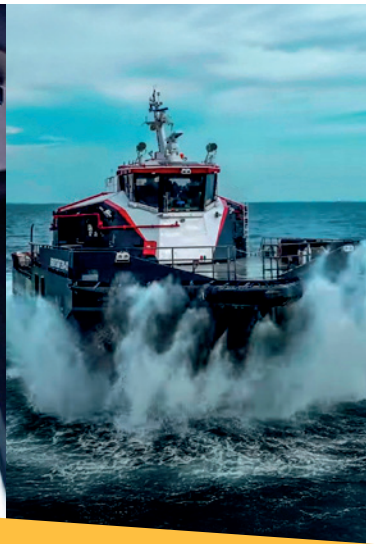

Passenger Seats	24
Safe boat landing access	1.8 m Hs
